Subject: Proposed Amendments to Part 2635

To Whom It May Concern:

This letter is to formally complain about the proposed amendments to part 2635.

Lobbyists have the power to effectively buy politicians' stances on certain issues, thereby unfairly influencing rules and regulations that affect all of us.

I expected a much higher level of ethics from the government and all governmental employees. By not amending the current language, we guarantee to hold our governmental employees to the strictest level of ethics.

Sincerely,

[REDACTED]
