RE: [RIN 3209-AA04](#)

As a former government employee (state) I support the proposed rule. Questions have been raised by the hotel industry that the rule would unfairly impact convention and hotel attendance. I see no difference restricting this form of benefit as it relates to hotel gratuities or other pecuniary benefits government employees may receive from lobbyists or others in seeking to influence them in the performance of their duties by showering them with perks to which they otherwise would not otherwise be entitled.
