Subject: Proposed Amendments to Part 2635 **Date:** Thursday, October 27, 2011 5:36:15 PM

I encourage the most stringent limits possible to prevent any Federal employee accepting any gift in any form from a lobbyist. Part of the Occupy Wall Street movement is due to the cozy relationship between corporations with the money to spend and Federal employees who can bend the rules for them. A hard-and-fast rule of "no gifts in any form from anybody" would clarify the relationship, particularly if the offending employee faces demotion or dismissal.

Thank you for your attention.
