Good morning,

I would like to add my comments to the Proposed Amendments to Part 2635, or the withdrawal of ethics regulations.

I am strongly against weakening America's control of lobbying organisations who already have an unfair advantage over normal citizens in petitioning the government for their own, often selfish and commercial ends. I am therefore against this proposed amendment increasing the ability of lobbyists to contact and influence government workers.

America was founded with a government "for the people" and allowing ever increasing control by outside agencies, organisations, businesses and other individuals does not serve the common people of the country/

Please register this email accordingly.

Kind regards,
