Moreover, the NCE LPFM Report and Order will increase the number of applicants eligible to file Schedules 314 and 315 by eliminating both the absolute prohibition on the assignment/transfer of LPFM construction permits and the three-year holding period restriction on assigning LPFM licenses. The elimination of these restrictions will benefit the LPFM service by increasing the likelihood that LPFM permits will be constructed, provide new service to communities, and help make the LPFM stations more viable.

Upon adoption, the Commission, submitted to OMB for the approval of information collection requirements contained in the Amendment of Section 73.3580 of the Commission’s Rules Regarding Public Notice of the Filing of Applications; Modernization of Media Regulation Initiative; Revision of the Public Notice Requirements of Section 73.3580, Second Report and Order, MB Docket Nos. 17–254, 17–105, & 05–6, FCC 20–65 (adopted May 12, 2020, rel. May 13, 2020) (2020 Public Notice Second Report and Order). The Commission adopted new, streamlined procedures for stations to provide public notice of the filing of certain applications. Stations, including commercial stations filing assignment and transfer applications, that were previously required to post public notice in a local newspaper, must now post notice online either on the station website or a website affiliated with the station, its licensee, or its parent entity, or else must post notice on a publicly accessible, locally targeted website, for 30 continuous days following acceptance of the application for filing. Stations, including those filing assignment and transfer applications, that are required to make on-air announcements of the filing of certain applications, must continue to do so, but the announcements are shorter and direct viewers and listeners to the application as filed and displayed in either the station’s Online Public Inspection File or another Commission database. A total of six on-air announcements are required, at least one per week and no more than one per day or two per week, to be broadcast between 7:00 a.m. and 11:00 p.m. local time, Monday through Friday, beginning after the application is accepted for filing.

The changes pertaining to this Information Collection and to 47 CFR 73.3580 adopted in the 2020 Public Notice Second Report and Order, did not necessitate changes to Schedules 314 or 315, nor did they affect the

substance, burden hours, or costs of completing the forms. The rule changes did, however, reduce burdens and costs associated with filing the application.

### SUPPLEMENTARY INFORMATION:

**Agency Form Number:** OGE Form 201.

**OMB Control Number:** 3209–0002.

**Type of Information Collection:** Extension with modifications of a currently approved collection.

**Type of Review Request:** Regular.

**Respondents:** Individuals requesting access to executive branch public financial disclosure reports and other covered records.

**Estimated Annual Number of Respondents:** 12,461.

**Estimated Time per Response:** 10 minutes.

**Estimated Total Annual Burden:** 2,077 hours.

**Abstract:** The OGE Form 201 (the form) collects information from, and provides certain information to, persons who seek access to OGE Form 278 Public Financial Disclosure Reports, including OGE Form 278–T Periodic Transaction Reports, and other covered records. The form reflects the requirements of the Ethics in Government Act, subsequent amendments pursuant to the STOCK Act, and OGE’s implementing regulations that must be met by a person before access can be granted. These requirements include the address of the requester, as well as any other person on whose behalf a record is sought, and acknowledgement that the applicant is aware of the prohibited uses of executive branch public disclosure financial reports. See 5 U.S.C. 13107(b) and (c) and 13122(b)(1) and 5 CFR 2634.603(c) and (f). Executive branch departments and agencies are encouraged to utilize the form for individuals seeking access to public financial disclosure reports and other covered documents. OGE permits departments and agencies to use or develop their own forms as long as the forms collect and provide all of the required information.

OGE currently has OMB approval for six versions of the form: OGE’s online application (English, Arabic, Chinese, French, and Spanish), and a PDF version in English.

A **Federal Register** Notice with a 60-day comment period soliciting comments on this information collection was published on September

9, 2025 (90 FR 43445). OGE received one set of comments containing several recommendations. OGE appreciates the feedback and considered each recommendation. The proposed modifications discussed below incorporate recommendations received that OGE believes will increase clarity, improve user experience, and/or reduce the burden on requesters utilizing the form. OGE declined to adopt other recommendations because they could not be implemented due to technical limitations, the suggested course of action fell outside of the scope of the form renewal process, or because OGE reached a different conclusion than the commenter regarding the utility of the specific form inquiry on which action was recommended.

*Proposed changes to the PDF and online English language versions:*

- Modifying the language of the Privacy Act Statement for clarity.
- Modifying the Ethics in Government Act citation for accuracy.

*Proposed changes to the PDF version only:*

- Adding language to the Supplemental Information section to (1) better capture the full scope of records available from OGE upon request and (2) inform requesters of general retention periods that may impact the availability of the documents they are requesting.

- Removing the following text from the “Should I use the online system or fill out the PDF Form?” portion of the Supplemental Information section because it is no longer relevant: “Note: Currently OGE is unable to fill any request using the PDF Form that does not provide an email address for the requestor.”

- Replacing sub-section numbering with standard numbering to improve user experience.

- Adding a parenthetical containing the word “optional” next to the “Your telephone number” section heading to clarify that providing such information is optional.

- Combining sections 1a and 6 into a single section with updated language (section 2 of proposed form) to reduce the number of responses needed to complete the form and explain why the requested information is sought.

- Relocating section 4 on page 3 of the current form down to section 8 of the proposed form and adding an explanatory parenthetical clarifying that a response is optional and informing that the requested information is for statistical purposes only.

- Combining sections 5 and 5a into a single section (section 7 of proposed form), updating the language of that

section to better align it with the requirements of the Ethics in Government Act, and adding language to inform that documents are generally retained for 6 to 7 years under Federal law such that older documents may not be available.

- Updating the language of the form’s Continuation Page to align it with section 7 of the proposed form, discussed above.

- Modifying text, formatting and spacing in several places to improve accuracy, clarity, consistency, and/or alignment with plain language principles.

*Proposed removal of the translated online versions of the form:* Because OGE does not have the resources available to update its translated online versions of the form, OGE is proposing to remove the Arabic, Chinese, French and Spanish language versions of its Form 201 online application.

*Request for Comments:* Agency and public comment are invited specifically on the need for and practical utility of this information collection, the accuracy of OGE’s burden estimate, the enhancement of quality, utility and clarity of the information collected, and the minimization of burden (including the use of information technology). Comments received in response to this notice will be summarized for and included with the OGE request for extension of OMB paperwork approval. The comments will also become a matter of public record.

Specifically, OGE seeks public comment on the following:

- What problems do you have using the form?
- Are there sections of the form or instructions that are unclear?
- Is there information provided that is confusing?
- What additional information would be helpful?
