NAME Maureen Gwinn	DESCRIPTION Workshop on the Development of an Evidence Based Risk Assessment Framework - Dec. 17-18, 2019 at Univeristy of Ottawa -The purpose of this workshop is review and discuss current and emerging approaches to evidence based risk assessment, and consider how such approaches might be embedded within an evidence based risk assessment framework. Participants from North America and Europe will be invited to participate in this workshop, and contribute to a workshop report that will both summarize the current state of the science in evidence-based risk assessment, and provide a blueprint for the development of an evidence-based risk assessment framework incorporating best practices in data integration and synthesis, both qualitative and quantitative. The workshop report will be submitted for publication in an appropriate scientific journal. NAME Greg Pond	DESCRIPTION Invited Speaker at Annual Conference. I have been invited by SFS to give a keynote presentation as a scientific tribute to Dr. Ben Stout who passed away	LOCATION Salt Lake City, UT	Society for Freshwater Science	Common carrier transp Waiver of fees

	in August 2018. Dr. Stout was a highly respected professor and environmental researcher at Wheeling Jesuit University and had worked with EPA on various projects over the years. He was a SFS Environmental Steward and SFS Fellow and the scientific community wants to acknowledge his contributions. Being from Wheeling, our team frequently interacted with him and got to know him personally. Attending this conference is a critical part of my job as valuable information is presented through multiple contributed and special sessions. Many EPA scientists in ORD and other regions attend every year. I have not been to SFS in several years, often due to shortages in regional travel funds. The travel assistance offered by SFS benefits the Agency, and benefits SFS since they would like to honor Dr. Stout.
