| NAME Amy Blankinship | DESCRIPTION This event is a focused topic meeting on endocrine disruption. A discussion will be held on how our Improved understanding of endocrine disrupting compounds (EDCs) and advancements in risk assessment methodology might suggest the need for changes in the current regulatory approaches. This discussion will be concluded by the generation of a formal meeting statement on the use of hazard versus risk when evaluating EDCs. Attention will also be given to forward-looking topics including, for example, emerging targets of endocrine disruption and emerging pathway-based tools for screening/testing. | LOCATION USEPA Campus Research Triangle Park, NC | Society of Environmental Toxicology and Chemistry | Common carrier transportation | | X | \$214 |

| | research to study mechanisms that determine the health risks of environmental pollutants. He has requested and received formal EPA management approval to participate in this activity - see the attached document "Conolly signed participation request." This collaboration between MSU and Dr. Conolly is mutually beneficial, with Dr. Conolly acquiring scientific and technical knowledge that he applies to his in-house work at EPA. The research at MSU is relevant the CSS RAP in particular and broadly relevant to all five of the ORD RAPs, and to the overall research goals of NHEERL/ISTD. Dr. Conolly will participate in research discussions at the November 11 - 12 meeting. | | | | | |

| NAME Allen Fawcett | DESCRIPTION The AMPERE (Assessment of Climate Change Mitigation Pathways and Evaluation of the Robustness of Mitigation Cost Estimates) Final Conference. AMPERE is a collaborative effort by researchers from across Europe as well as from Asia and America, combining the capabilities of diverse integrated assessment models and examine a broad range of mitigation scenarios that reflect the limitations of real-world policies. This conference will bring together climate policy experts and stakeholders to discuss the key AMPERE findings and relate them to Europe's options for climate mitigation strategies and to the prospects for internationally coordinated action based on the Durban platform. Allen Fawcett is presenting results of the EMF 24 exercise in the afternoon session, "Europe's potential contribution to international climate action." | LOCATION Brussels, Belgium | Center for European Policy Studies | Common carrier transportation Meals Lodging Local transportation Other: Internet and TAV fee | X X X X X | | \$1800.20 \$556.50 \$603 \$147.27 \$79.53 |

| NAME Ian Gilmour | DESCRIPTION Analytica Conference is the most renowned gathering for the European Community for cutting-edge research --the bridge between science and commerce. Dr Gilmour will discuss his research concerning the chemistry and health impacts of combustion air pollutants with members of HelmholtzZentrum (German Research Center for Environmental Health). The research has been critical to supporting EPA's efforts to understand the mode of action of ambient particulate matter inhalation on human mortality and morbidity. In addition to presenting highlights of EPA research at the meeting, Dr. Gilmour will have an opportunity to interact with other scientists from different countries working on issues of health outcomes associated with air pollutant exposure. | LOCATION Munich germany | Gesellschaft Deutscher Chemiker | Common carrier transportation | | X | \$1750.50 |

| NAME Thomas Knudsen | DESCRIPTION The 39th Annual Meeting of American Society of Andrology will provide a forum for clinicians and basic scientists to exchange ideas and raise new clinically applicable questions that can lead to novel research directions and efficacious therapies. Renowned researchers working in the fields of urology, endocrinology, clinical andrology, genetics, reproductive medicine, and reproductive biology will come together to present cutting edge developments in the physiological and molecular foundations of male reproductive function. The educational objective will be to describe the mechanistic relationships among environmental exposures and health risk, and the development of cost-effective approaches for efficiently prioritizing the toxicity testing of chemicals. | LOCATION Atlanta, GEORGIA | American Society of Andrology | Common carrier transportation | X | | \$296 |

| NAME Mary Manibusan | DESCRIPTION , SETAC North America invites you to speak at the Focused Topic Meeting on Endocrine Disrupting Chemical Testing and Risk Assessment Approaches and Implications. This meeting will be held on the 5th and 6th of February 2014 in Research Triangle Park, North Carolina. SETAC Focused Topic Meetings are a demonstrated forum for bringing together researchers, regulators and policy-makers in open exchange of information and knowledge toward a leading edge subject. The purpose of this Focused Topic Meeting (FTM) is to exchange knowledge and experience gathered on screening, testing and evaluation of potential endocrine disrupting chemicals to date, focusing primarily on the US approach. International perspectives will be shared and discussions had on hazard assessment versus risk assessment using case studies. Attention will also be given to "forward looking" topics including, for example: emerging targets of endocrine disruption and emerging pathway-based tools for screening/testing. This discussion can be considered to be a continuation of that begun at an earlier (and very successful) SETAC Europe Scientific Symposium on Endocrine Disruptor Testing and Evaluation, focusing primarily on EU legislation, that was organized along similar lines in Brussels, in October 2012. The meeting is considered to be timely, given the significant experience that has been built up over the past three years during the first phase of the Endocrine Disruptor Screening Program (EDSP), as well as the Tier 2 battery of tests will be approaching the implementation stage by that time. | LOCATION RTP, NC | SETAC North America | Common carrier transportation Lodging Waiver of fees | | X X X | \$200 \$288 \$624 |

| NAME Ginger Moser | DESCRIPTION DENAMIC is holding several workshops to bring together people working in the field of chemical exposures and developmental neurotoxicity. This workshop focuses on novel tools and methods for screening of chemicals for developmental neurotoxicity. These are topics of critical importance to the Agency for improving human health risk assessments. The meeting will provide the opportunity to present NHEERL research as well as hear new findings and foster interactions with experts in other countries working on the same issues. | LOCATION NETHERLANDS - AMSTERDAM | VU UNIVERSITY | Common carrier transportation Meals Lodging Waiver of fees | | X X X X | \$1200 \$344 \$1128 \$140 |
| TITLE toxicologist | SPONSOR The workshop is sponsored by DENAMIC, a consortium of universities and research institutes in Europe and funded by the European Union. The venue is the VU University in Amsterdam, who is responsible for all logistics and payments. | DATES 03/08/2014-03/12/2014 | | | | | |

| NAME Jon Sobus | DESCRIPTION This symposium will focus on translational science and the relevance of toxicologic pathology to human health. Topics will include the predictive value of nonclinical models and how animal model and human endpoints inform each other. Progress in the development of new nonclinical animal models and other types of models will be discussed, highlighting areas where models are highly predictive of human endpoints and areas where alternative models are needed. Emerging technologies which have the potential to improve translational capabilities will also be presented, with an emphasis on advancements that will impact regulatory decision making in coming years. As the field of epigenetics is rapidly advancing, the role and utility of epigenetic endpoints in toxicologic pathology and their relevance to human health will be addressed. Environmental toxicologic pathology plays a critical role in understanding health impacts of environmental exposures; therefore, how pathology outcomes inform human health assessments and regulatory decisions will be discussed. Finally, as the incidence of comorbidities in the human population increases, there is a | LOCATION Washington DC | Society of Toxicologic Pathology (STP) | Common carrier transportation | | X | \$250 |

Rogelio Tornero-Velez

To present at a 2014 Society of Toxicology workshop

****Acceptance letter (sent to chair)****:

It is a great pleasure to inform you of the final acceptance of your Workshop Session titled Developmental Toxicity from Chemical Mixtures: Research to Application in Susceptible Populations for the Society of Toxicology (SOT) Annual Meeting in Phoenix, Arizona from March 23–27, 2014. Your session has been programmed to take place on Tuesday, March 25, 2014, from 1:30 pm to 4:15 pm. Please communicate this date and time to your speakers.

Please also let your nonmember speakers know that they will receive complimentary registration to attend the Annual Meeting and should not complete an Annual Meeting registration form. All nonmember speaker registrations will be handled by SOT HQ. SOT will contact nonmember speakers approved for full-funding support in November to assist with lodging and travel logistics.

If you would like to provide headshots of your presenters to be associated with the session in the Annual Meeting app and you did not upload them during the invited speaker phase, you may submit photos on the SOT website until October 31. This is not required for your session. Please be sure to indicate what session the speaker will be presenting in when uploading the photo. Photos should be in jpeg format with high resolution (minimum 300 dpi).

If you have any questions about this session, please feel free to contact me via email at april@toxicology.org, or telephone at 703.438.3115. Thank you for your assistance and we look forward to seeing you in Phoenix, Arizona.

Chair: Danielle Carlin
Co-Chair: Moiz Mumtaz

**** Invitation to Speak****

Hi Dr. Tornero-Velez,

I am a Program Administrator here at NIEHS and I have met you before at the NIEHS Mixtures Workshop back in 2011.

I am planning a 2014 Society of Toxicology (SOT) workshop proposal with my colleague, Dr. Moiz Mumtaz, from the Agency for Toxic Substances and Disease Registry (ATSDR/CDC). We would like to invite you to be a speaker for this tentative workshop. An official invitation will only be sent if this submission is accepted by the SOT planning

SOT 53rd Annual Meeting at the Phoenix Convention Center in Phoenix, Arizona.

X

\$100
\$514.20
\$700

committee. The SOT meeting will take place in Phoenix, AZ, March 23-27, 2014.

The tentative title for this workshop is "Developmental Toxicity from Chemical Mixtures: Research to application in susceptible populations." Please see the draft proposal attached. We think your expertise in exposure modeling in children would be a great addition to this workshop.

We would like your input into the development of the workshop, and we want to ensure that your expertise is completely captured. We also ask you to write a short abstract about your research and how your expertise will contribute to this workshop. We will need these abstracts at least by April 5th as we will need to have these reviewed by various Specialty Sections and then send the final abstract to SOT by April 30th.

Please let me know if you are interested in being considered in this workshop proposal. As you are aware, NIEHS, ATSDR, and EPA have a high interest in research on combined exposures/chemical mixtures and susceptible populations. I believe that this workshop will be a way to build up the recognition of this research as well as build collaborations between the agencies.

Thank you in advance for your consideration, and we hope to hear from you soon. Additionally, if you are unable to speak at this tentative workshop, we would greatly appreciate suggestions for other speakers that may have similar expertise to you.

Sincerely,

Danielle
